Grym y Cynulliad –
Dewch i ni'i gael yn IAWN!

Cyn bo hir bydd pobl Cymru yn cael dewis pwysig.

A

Rhoi pwerau deddfu sylfaenol i'n Cynulliad ni yn y meysydd y mae'n gyfrifol amdanyn nhw eisoes

neu

B

Cadw'r system bresennol o orfod gofyn i San Steffan am gael trosglwyddo pwerau deddfu bob yn damaid

Mae Cymru Yfory'n credu y dylai **deddfau sydd ddim ond yn effeithio ar Gymru gael eu gwneud yng Nghymru**. Ar hyn o bryd ni sy'n gyfrifol am wasanaethau allweddol ond rydyn ni heb yr offer i wneud y gwaith yn iawn.

Gyda phwerau deddfu go-iawn, byddai **llywodraethu'n symlach, ac yn fwy effeithiol**, a byddai modd gweithredu'n brydlon dros ein pobl a'n cymunedau. Hefyd fe fyddai'n **osgoi gwrthdaro diangen** â San Steffan.

Byddai cadw'r system bresennol yn **afradu amser ac yn llethu'r Cynulliad** â phroses a dadleuon cymhleth.

Referendum

Our Assembly's Powers –
Let's get it RIGHT!

Soon the people of Wales will be given an important choice.

A

To give our National Assembly primary law-making powers in the areas for which it is already responsible

or

B

To keep the present system of having to ask for law-making powers to be transferred from Westminster bit by bit

Tomorrow's Wales believes that **laws that affect only Wales should be made in Wales**. At present we're responsible for running key services but haven't got the tools to do the job efficiently.

Proper law-making powers would give us **simpler, more effective government**, able to act swiftly for the benefit of our people and communities. It would **avoid unnecessary conflict** with Westminster.

Keeping the present system would **waste time and bog the Assembly down** in process and disagreement.
